

BRAND ROUND-UP

LEATHER GOODS & SHOES

13 Leather Goods & Shoe brands to watch out for in 2022!

SHOES –

CLARIS VIROT:

The Claris Virot brand is above all new collections with injections of new skins and new models such as the arrival of the basket for the summer or the 100% leather line. Tanned, grained, smooth or tie and dye, the Claris Virot leather, like the python used in all the models, is worked by hand in Balinese workshops.

REIKE NEN:

The inspirations are expressed every season by mixing the formal and the atypical, the flexible and the hard, the raw and the refined. Contemporary and new elegance - Contemporary Refinement - this is the purpose of this rake nen.

YUME YUME:

LVYUME YUME creates unique design pieces for all creatives in the world.

<https://yumeyume.eu/>

MOEA:

MoEa use innovative bio-materials from recycled fruits and plants to create low-carbon and vegan sneakers.

<https://moea.io/fr>

ROMBAUT:

Using luxurious plant-based materials, recycled fibers and high grade artificial leather, ROMBAUT creates unique sneaker styles with a story. Often experimenting with cultural stereotypes and cross-pollination of archetypal footwear classics we create a new aesthetic of purity, optimism and gloom, which feels very relevant today.

LEATHER GOODS –

DESTREE:

DESTREE tells the story of a colorful and singular passion, of a Parisian yet different style, drawing its beauty from the visual dissonances it evokes and which it translates through a graphic and structured aesthetic.

<https://destree.com/>

MEDEA:

Milan-based label poised to have next season's "It bag".

<https://medea.world/>

RSVP:

A Parisian design studio that explores the beauty of modern craftsmanship. From a tradition of craftsmanship excellence, RSVP is deeply connected to a community of artisans.

<https://rsvp-paris.com/>

AUDETTE:

Disruptive print combinations and rugged lines are at the core of Audette's designs. All pieces are handcrafted in the South of Spain using high-quality Italian leather, luxury leather deadstock, and innovative Cactus materials that are turned into futuristic creations.
